A saga of commitment to human welfare...

BROSCO INTERNATIONAL INC. (BI), headquartered in Texas, US was established with an objective to serve the human society with high quality products at affordable price. It is into diversified activity ranging from manufacturing, trading and contracting business, with separate divisions for each.

The medical division had its inception in the year 1989 and today is a renowned global manufacturer & marketer of medical devices. The company initially started with medical disposables and soon the product line expanded to include specialty devices including catheters and sutures.

Being one of largest manufacturers in healthcare industry, we have more than 30 world class manufacturing facilities globally catering to the needs of more than 70 countries. With warehouses in UAE and India, we ensure that our products are readily available have lowest lead time for distributors worldwide.

At Brosco, we strive to empower the medical fraternity by understanding their need and translating them to product reality. Our goal is to play a pivotal role in helping mankind to stay well and healthy by providing state of the art medical devices affordable to all.

QUALITY VALUES

Driven by human values and powered by state-of-art in house R&D labs, all our products are manufactured with sophisticated technologies in world class facilities using medical grade and bio

compatible raw materials, strictly in conformance to International Quality Standards. Our facilities are ISO certified and we have CE certifications for our products. This in addition to our ceaseless pursuit for innovation has made Brosco a force to reckon with in the global healthcare industry.

HIGHLIGHTS

- Our strength is our exceptionally broad product line, catering to the wide spectrum of healthcare industry. The coming years will see further significant additions to this line by expanding and diversifying into other needed areas.
 - Prioritizing Research, Development & Innovation in every aspect of product development.
 - Emphasis on strict and uncompromised quality control to ensure safe and efficient devices.
 - Over 30 world class manufacturing facilities globally.
 - A strong and efficient marketing & distribution network world wide in over 70 countries.
- Brosco works closely with group of distributors worldwide including the Middle east, Africa, Asia and CIS countries. Our client profile includes Retailers, Hospitals and the MOH.

I.V. CANNULA FOR CONTINUOUS PERIPHERAL INTRAVENOUS INFUSION

**IV CANNULA
WITH PORT &
WINGS**

**IVBCS*
BROCATH IV CANNULA
WITH PUMEX CATHETER**

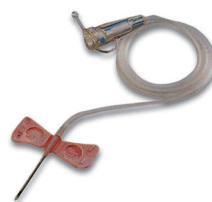

RE ORDER NO	GAUGE	COLOR	CATHETER		CATHETER LENGTH mm	WATER FLOW RATE ml/min

IVB026	26 G	Violet	0.45	0.60	19	17

►► FEATURES

- Two-way I.V. cannula with color-coded injection port.
- One-way valve is provided with a specially designed cap incorporating a recessed plug with a protective skirt to prevent contamination. It also enables intermittent medication while saving cost and trauma to patient.
- Angled and grooved wings offer easy fixation and prevents rolling of the cannula in the patient's body.
- Siliconised, sharp Beveled needle with 3-facet Needlepoint enables gentle insertion, minimizing jerks.
- Special tapered and kink resistant radiopaque catheter for easy vein puncture with minimum trauma.
- Incorporates a flashback chamber in the hub, blood stopper and luer lock cap.

SCALP VEIN SET BUTTERFLY NEEDLE FOR RAPID VENOUS ACCESS

RE ORDER NO	GAUGE	COLOR	NEEDLE LENGTH (in inches)	NEEDLE DIAMETER (in mm)
SVS1819	18G	Pink	3/4"	1.20
SVS1919	19G	Cream	3/4"	1.07
SVS2019	20G	Yellow	3/4"	0.90
SVS2119	21G	Green	3/4"	0.80
SVS2219	22G	Black	3/4"	0.70
SVS2319	23G	Sea Green	3/4"	0.63
SVS2419	24G	Red	3/4"	0.56
SVS2519	25G	Deep Blue	3/4"	0.50

►► FEATURES

- Stainless steel and ultra thin, sharp beveled needle with 3 facet gives rapid infusion ability.
- Angled and flexible wings made of medical grade PVC designed for patient comfort.
- Luer adapters and link tube made of non-toxic, medical grade PVC in accordance with highest medical standards and allows good security to infusion sets.
- Color-coded wings for easy Gauge identification.
- Sterile and individually packed in peelable blister packs/polypack.

SC3W THREE WAY STOPCOCK

►► FEATURES

- Designed for safe and stable positioning on the patient's body.
- Leak proof up to 4.5 bars and can endure pressure during routine procedures.
- Minimum priming volume required for accurate drug administration.
- Rotating male luer and two female luer connectors, which facilitate safe and secure connection to luer of other systems.
- 360° Rotation.
- Arrow indication on the rotator to indicate the direction of flow.
- Disposable, Sterile and Non Pyrogenic
- Available in red and blue handles also.

SC3WT THREE WAY STOPCOCK WITH EXTENSION TUBE

FEATURES

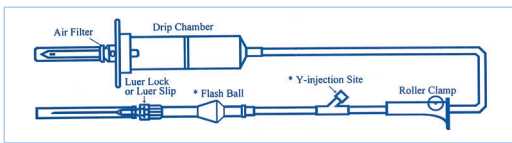

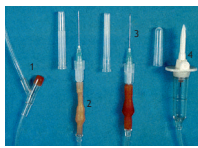

- Extension line with three way stopcock at one end and male luer lock connector at other end
- Soft and kink resistant PVC tubing.
- Tube lengths 10, 25, 50, 100, 150 and 200cm
- Disposable, Sterile and Non Pyrogenic.

IVB100 / IVB150 (VOLUMETRIC) I.V. ADMINISTRATION SET

FEATURES

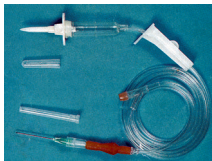

- Available with or without air vent. Air filters are hydrophobic, bacteria retentive.
- Soft, kink resistant and medical grade PVC tubing.
- 100ml/150ml Burette, 60 drops per ml with Y-injection site.
- Burette chamber is scaled for accurate measurement of medication for critical and pediatric/ neo natal care.

Flash ball and Y-injection site (as shown with vented set) are available options.
Customizable Features for IVIV / IVIY

- 1) Y-injection site
- 2) Flash ball (Standard)
- 3) Flash ball (Extra thick)
- 4) Air inlet with air filter (Vented spike)
- 5) Needle
- 6) Length of the tubing

IVIV / IVIY I.V. ADMINISTRATION SET

FEATURES

- IV set with 15/20 drops per ml and 60 drops per ml (Paediatric) available upon request.
- Available with or without air vent . Air filters are hydrophobic, bacteria retentive.
- Specially beveled and extra strong Spike for smooth penetration.
- The universal vented spikes will fit all standard, rigid and semi rigid bottles as well as collapsible plastic bags with requiring an air needle.
Needle 21G x 1 1/2", Tubing - 170 cm.

BTS BLOOD ADMINISTRATION SET

FEATURES

- 10 drops per ml with 18G needle and integral blood filter having a 200 µm pore size and standard size surface area.

COMMON FEATURES

- Customized products are available including sets with non-vented spikes, Y-injection site, check valve for automatic shut off, inline solution filter, luer lock or luer mount needles and varying tube length.
- All I.V. set components are manufactured from USP class VI material and is disposable, sterile and non-pyrogenic.

EXTENSION TUBE

ETHS* HIGH PRESSURE EXTENSION LINE

FEATURES

- For pressures upto 800 P.S.I.
- I.Ø 1.5 mm. & O.Ø 3.0 mm

ETH150-P HIGH PRESSURE EXTN LINE PVC FREE

FEATURES

- Made of Polyethylene (PE) which is soft and kink resistant.
- To administer drugs (mainly Aldehydes and Di-ethyl Aldehydes) that react with PVC.
- Ideal for transfusion of blood components, plasma etc.

COMMON FEATURES FOR ETHS* & ETLS*

- Male luer lock connector at one end and female luer lock connector at other end.
- Soft & Kink resistant PVC tubing.
- Tube lengths : 25, 50, 100, 150 & 200 cms

* Length Specifications

ETLS* LOW PRESSURE EXTENSION LINE

FEATURES

- For use with infusion set tubing.
- Available with or without clamp.
- I.Ø 3.0 mm & O.Ø 4.1 mm

NEEDLE

►► FEATURES

- Ribbon packaged with needle mounted on top
- Medical grade Poly propylene compatible with any medication is used for making barrels and plungers.
- Luer Mount/Slip and Luer lock tips are used for the barrels.
- Three part , Two part and safety syringes are available in the range.
- Luer Lock nozzles ensures secure fitment of the needle.
- Ribbon packaging is superior to blister packing due to water resistance and puncture resistance.

SUCTION CATHETERS

SCP06 - 20
ENDO BRONCHIAL
SUCTION CATHETER - PLAIN

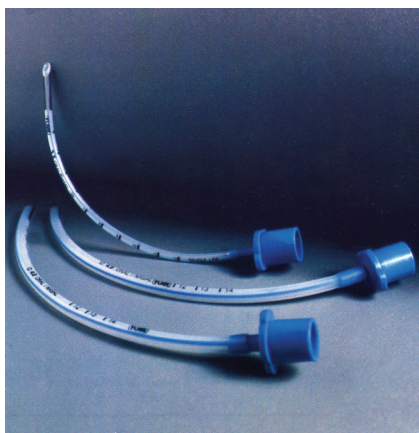

SCT06 - 20
ENDO BRONCHIAL SUCTION
CATHETER
WITH FINGER TIP CONTROL

►► COMMON FEATURES FOR SCP06-20 & SCT06-20

- For removal of secretion from trachea and bronchial tube.
 - Soft and Kink resistant PVC tubing.
 - Atraumatic, soft & rounded open tip with one lateral-eye.
 - Color coded connector for easy identification of size.
 - Length : 52 cms.
 - Sizes : 6 FG to 20 FG
- Proximal connector with lateral eye for finger control.

- 6FG Green
- 14FG Sea Green
- 8FG Blue
- 16FG Orange
- 10FG Black
- 18FG Red
- 12FG White
- 20FG Yellow

ETTS* ENDOTRACHEAL TUBE **(NASAL / ORAL)**

- Designed for intubation.
- Manufactured from Medical grade PVC with naso oral tip.
- Tubing is marked to determine intubation depth.
- Standard 15 mm connector at proximal end.
- Sterile and Individually packed.
- Available Cuffed/Uncuffed with sizes 2mm to 10.0mm with 0.5 mm

*Size

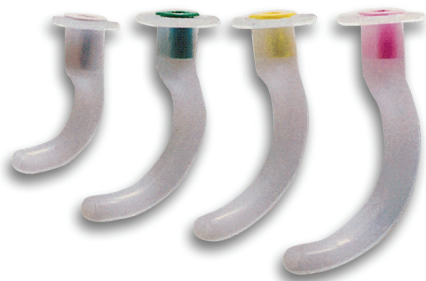

YST YANKAUR SUCTION SET SUCTION CONNECTING TUBE WITH HANDLE

►► FEATURES

- Suitable for removal of blood secretion etc.
- Soft and kink resistant ribbed PVC tubing.
- Funnel end connectors at both ends of tubing.
- Tube length: 2.1 mts.
- Tube size: I.Ø. 5.5mm. & O.Ø 8.5 mm.

GA20 - 04 GUEDEL AIRWAY ORO-PHARYNGEAL AIRWAY

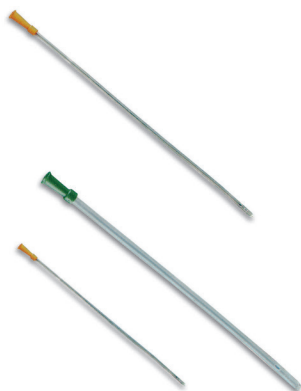

►► FEATURES

- For maintaining an unobstructed oropharyngeal airway during general anaesthesia and in unconscious patients.
- Bite block to prevent biting of tongue and airway occlusion.
- Rounded atraumatic distal end.
- Stepless airway path for easy cleaning.
- Color coded for easy identification of sizes.
- Sizes : 00, 0, 1, 2, 3, 4.

- 00 Blue - GA 20
- 0 Black - GA 10
- 1 White - GA 01
- 2 Green - GA 02

URINE DRAINAGE CATHETERS

UROLOGY

NCU06 - 24 NELATON CATHETER

- Length : 40 cms.
- Sizes : 6FG to 24FG.

FCU06 - 20 FEMALE CATHETER

- Length : 18 cms.
- Sizes : 6FG to 20FG.

►► COMMON FEATURES FOR NCU06-24 & FCU06-20

- for short terms bladder catheterisation through urethra.
- Soft and kink resistant PVC tubing.
- Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage.
- Color coded plain connector for easy identification of size.

- 6FG Sea Green
- 8FG Blue
- 10FG Black
- 12FG White
- 16FG Orange
- 18FG Red

**UCBB MEDISOFT
URINE COLLECTION BAG
WITH BOTTOM OUTLET**

- For short and long term urine collection.
- Reinforced hole for hanging.
- Conical connector with cap.
- capacity : 2000ml.

**UCBT
URINE COLLECTION BAG
WITH TOP
OUTLET**

- For short and long term urine collection.
- Conical connector with cap.
- Available in following configuration :
 - a. With or without hanger.
 - b. With 90 cms. or 100 cms. long tubing.
- capacity : 2000ml.

▶▶ COMMON FEATURES FOR UCBB & UCBT

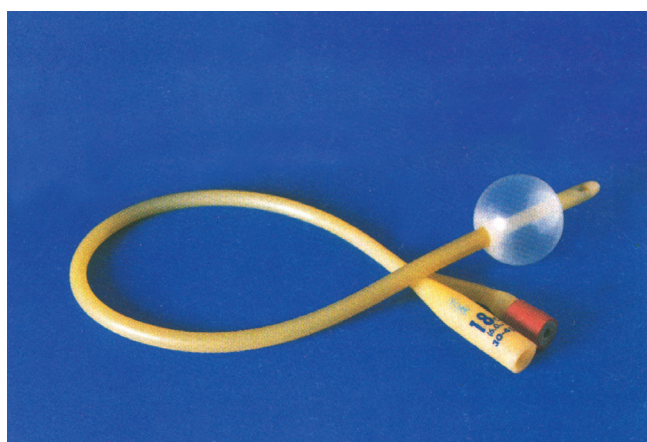

- Soft and Kink resistant tubing with frosted surface.
- With non-return valve.
- Made from medical grade PVC.
- Bag graduated in ml.

**PUB100
PAEDIATRIC URINE COLLECTION BAG****▶▶ FEATURES**

- For short term urine collection.
- Suitable for both male and female infants.
- Capacity : 100ml.

▶▶ FEATURES FOR PUB100

- Made from medical grade PVC.
- Bag graduated in ml.

LATEX FOLEY CATHETER SILICONISED

RE ORDER NO	ITEM	SIZES	BALLOON CAPACITY
FC212s*-18s	2-WAY	12 TO 18 FR.	5 - 15 CC
		12 TO 30 FR.	30 CC
FC206s*-10s	2-WAY	6 FR	1.5 CC
		8 TO 10 FR	3 - 5 CC
FC316s*-30s	3-WAY	16 TO 30 FR.	30 CC

* Baloon capacity

FOLEY CATHETERS**▶▶ FEATURES**

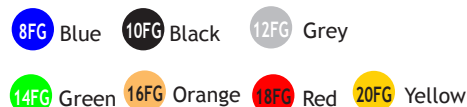

- The smooth tapered tip facilitates easy introduction.
- Reinforced Junction. The junction between the inflation funnel and the main catheter shaft is integrally bonded and strengthened to ensure its reliability, preventing detachment during use.
- The symmetrical balloon expands equally in all direction.
- Color coded sleeves enable easy visual identification of sizes.
- Plastic valve accepts all types of commonly used syringe nozzles for easy inflation and deflation and is more efficient than rubber valve.
- The smooth outer surface is specially treated with medical grade silicone fluid which facilitates easy passage through Urethra.

**RTS08 - 20
RYLE'S TUBE
STOMACH TUBE FOR NASOGASTRIC
INTRODUCTION**

►► **FEATURES FOR RTS08-20**

- Soft and Kink resistant PVC tubing.
- Tube with radio-opaque line is marked at 45, 55, 65 & 75 cms from the tip for accurate placement.
- Color coded funnel end connector for easy identification of sizes.
- For nasogastric introduction for nutrition and aspiration of

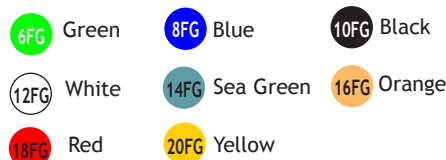

intestinal secretion.

- Closed distal end with metallic balls sealed into the tube to assist the passage of tube during intubation.
- Four lateral eyes.
- Length : 105 cms.
- Sizes : 8FG to 20 FG.

**IFT06-20
INFANT FEEDING TUBE FOR PAEDIATRIC & NEONATAL USE**

►► **FEATURES FOR IFT06-20**

- For neonatal paediatric nutritional feeding.
- Soft & kink resistant PVC tubing.
- Closed distal end with two lateral eyes.
- Tube with radio-opaque line is marked from 5 to 25 cms the tip for accurate placement.
- Available in male or female luer lock.
- Length : 40 & 50 cms.
- Sizes : 5 FG to 10 FG

**RCU18 - 32
RECTAL CATHETER**

- Length : 40 cms.
- Sizes : 18FG to 32FG.

PLASTIC PRODUCTS

**MCP01/02
MEDICINE CUP**

Graduated, translucent and manufactured of strong flexible medical grade plastic are ideal for accurate administration of medications.

Available capacity: 1 oz (30 cc) and 2 oz (60 cc)

**PCS*
PATHOLOGY CONTAINER**

Ideal for specimens even those that require a preservative. Snap-on lid ensures a secure and leak proof seal.

Shatter-resistant translucent plastic allows for ease in viewing contents

Available capacity: 8 oz (1/4 ltr), 16 oz (1/2 ltr), 32 oz (1 ltr), 64 oz (2 ltr), and 172 oz (5 ltr)

**BPP02
BEDPAN PONTOON**

Pontoon styled bedpans are strong, solid and contoured for patient comfort. Smooth edges facilitate handling, transporting and emptying. Recessed tailbone area for extra comfort. Front rim to use as handgrip for stabilization and removal of pan. Rear overhang allows for added capacity while containing contents during transport.

SITZ BATH

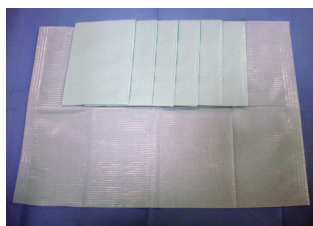

Gold color with Water bag
Ideal for the treatment of hemorrhoids or other perineal conditions.

**BE500
BASIN EMESIS (KIDNEY TRAY,
DISPOSABLE), 500 CC**

Ideal for containing fluids, measuring output and for routine dental use. Graduated every 100cc from 100 cc to 500 cc and every 4 oz from 4 oz to 16 oz.

DB4533
DENTAL BIBS

FEATURES

- 2 ply paper + 1 ply PE, Soft and comfortable.
- Available in a wide range of colors
- Size: 45cm x 33cm, Packing: 500 pcs/Cs.

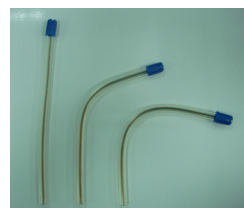

HRC2533
HEAD REST COVER
FOR DENTAL CHAIR
FEATURES

- 2 ply paper + 1 ply PE, Soft and comfortable.
- Available in a wide range of colors
- Size: 25cm x 33cm, Packing: 500 pcs/Cs.

DCRM01/02
DENTAL COTTON
ROLL - NON STERILE

FEATURES

- Made of pure white cotton with long fiber.
- High absorbency with no artificial additives or chemicals.
- Flexible, conforming yet maintains shape.
- Available Sizes: #1 and #2, Packing: 2000 pcs/Bx.

SE01-F
SALIVA EJECTOR

FEATURES

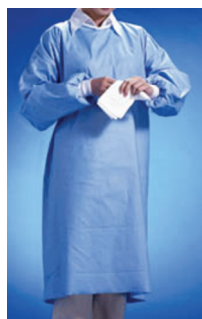

- Easy to use with non-rusting alloy wire that easily conforms to any desired shape.
- Increased patient comfort and safety with soft bonded smooth tip to avoid tissue aspiration.
- Offers optimal suction.
- Packing: 100 pcs/Pkt.

DS-001
DRESSING CHANGE TRAY - STERILE,
DISPOSIBLE

A complete kit for efficient wound dressing. Contains everything needed for complete procedure.

Contents:

- 1 Ea - Outer Dressing Tray
- 1 Ea - Scissor
- 1 Ea - Hand towel, Limpet Bag, Sterile field, water proof drape
- 2 Ea - Dissecting Forceps
- 5 Ea - Non-woven swabs 7.5 x 7.5 cm
- 6 Ea - Cotton balls

SGWN-01
SURGICAL GOWN PACK
- STERILE, DISPOSIBLE,
REINFORCED

The Gown is made of non-woven hydrophobic SMS material that protects against fluid penetration. Comes with 4 ties, Sleeves with elastic cuffs and the pack is provided with 2 hand towels also.

The gowns provide good protection, comfort and convenience, even during prolonged operations. The light breathable material keeps the wearer cool and comfortable.

DDS-01
DENTAL SET - STERILE, DISPOSIBLE

FEATURES

- Contents: 2 Ea Cotton ball, 1 pc Each of Dentalprobe, Dental Bib, Forcep, Stomatoscope, & Tray
- Convenient, time saving and cost effective.

SBCS10 - 24
STERILE SURGICAL BLADE

►► **FEATURES**

- Blades are made from Premium quality Cold- rolled high-carbon steel / stainless steel which ensures consistently sharp cutting edges
- Blades are sterile packed in individual aluminum foils, peelable and protected by VCI coated paper lining
- Available sizes: 10, 11, 12, 15, 20, 21, 22, 23, 24, 25

SC10HLE - 24HLE
STERILE DISPOSABLE SCALPEL

►► **FEATURES**

- Disposable scalpels with high quality precision blades.
 - Ergonomically designed for better feel and precision.
 - Plastic handle ensures greater convenience.
 - Manufactured in accordance with the highest quality standards and product specification.
 - Individually packed in Medical grade peel pack paper
- Available sizes: 10, 11, 12, 15, 20, 21, 22, 23, 24, 25

GLOVES

SGP060 -090
SURGICAL GLOVE LIGHTLY POWDERED

- Made from natural rubber latex.
- Anatomically shaped and textured surface for excellent instrument Grip.
- Prepowdered with USP bioabsorbable cornstarch. (FDA Approved).
- Beaded cuff with minimum length of 280 mm. for extra protection.
- Factory standard of AQL 0.65 (International standard 1.5 AQL).
- Extractable protein content less than 100 µg/gm on request.
- Uncompromised inspection of every glove.

SURGICAL GLOVES - DIMENSIONS						
Sizes	6	6.5	7	7.5	8	8.5
Cuff Length	280 mm (minimum)					
Palm Width	77 ± 5 mm	83 ± 5 mm	89 ± 5 mm	95 ± 5 mm	102 ± 6mm	114 ± 6mm
Thickness	0.13 mm (minimum)					
PHYSICAL PROPERTIES						
Properties		Before Ageing (Min)		After Ageing (Min)		
Tensile Strength		24Mpa/12N		18 Mpa/9N		
Elongation at Break		750% Min.		560% Min.		

SGPN060 - 090
SURGICAL GLOVE POWDER FREE

- Specially designed and manufactured for those allergic to powder.
- Extractable natural rubber latex protein content less than 50 ug/gm reduces risk of being sensitized to Type 1 allergy.
- Manufactured in a clean, hygienic dust free environment with positive pressure air filtration system.
- Extensively leached to remove chemical and latex protein residues.
- Sterilized in an ISO 9002 & EN 46002 certified facility.
- Micro rough surface for excellent instrument grip.
- Uncompromised inspection of every glove.

SGG S/M/L - GYNAECOLOGICAL GLOVE

Dimension	S	M	L	Tolerance
Length	500 mm	500 mm	500 mm	Minimum
Width	83 mm	95 mm	108 mm	+/- 5 mm
Thickness	0.12 mm	0.12 mm	0.12 mm	Minimum

Physical Properties	BEFORE AGEING	AFTER AGEING
Tensile Strength	24 Mpa.	17 Mpa.
Elongation (E.B)	700% Min.	600% Min.

FEATURES

- The extra long cuff, covers the Obstetricians gown sleeves, preventing gown sleeve from getting soaked during delivery
- For manual removal of placenta and form repair/ surgery of cervix and vagina, the extra length of cuff is of great advantage.
- The rough surface of glove helps in firm grip of the newborn baby and gives good grip of surgical instruments during episiotomy.
- The anatomical shape gives comfort and prevents muscle cramps during long surgical procedures.

SG060P - 090P

BROMED PLUS POLYMER COATED SURGICAL GLOVE

ADDITIONAL BENEFITS

- Inner coating of Polymer helps preventing rubber latex allergies
- Easy donning, wet donning with additional grip.
- Thumb ball effect.

SGN402-06-090

BROMED NEOPRENE SOFT STERILE SYNTHETIC POWDERFREE NON-LATEX SURGICAL GLOVES

- Excellent donning and fit
- Mint green color
- Eliminates allergies related to Latex

BROMED GLOVE

Powdered Latex Examination Glove

BROMED GEL

Powderfree Polymer coated Examination Glove

BROMED NITRILE

Nitrile Powderfree Examination Glove

AOM01/POM01 - OXYGEN MASK (ADULT/PAEDIATRIC)

- Oxygen mask with 2m tubing and adjustable nose clip.
- Made of a soft clear plastic, is Latex FREE and are anatomically formed for comfort.
- These masks have an elastic strap for added comfort and snug support even on hard-to fit faces.

FMT/FML FACE MASK

- Tie-on/Ear loop masks for general surgical personal protection
- Fluid resistant to help reduce potential exposure of the wearer to blood and body fluids.
- The masks have >99% Bacterial Filtration Efficiency (BFE) and >95% 0.1 micron particle filtration efficiency.
- Non Latex, 3 layer mask

RESPIRATORY CARE

ANK01/PNK01 - NEBULISER MASK WITH KIT

- Nebulizer mask, with chamber, 2m tubing, adjustable nose clip and elastic strap for added comfort.
- Made of a soft clear plastic, is Latex FREE and are anatomically formed for comfort. Available in Adult & Paediatric Size.

NOXYC NASAL OXYGEN CANNULA TWIN BORE NASAL OXYGEN SET

FEATURES

- Suitable for easy and efficient administration of oxygen to the patient.
- Soft funnel shape connector facilitates easy connection to oxygen source.
- Soft & kink resistant PVC tubing.
- Soft & ergonomically shaped twin prong nasal tips.
- Tube length: 2 mts., green color.

**CCSS*
CERVICAL COLLAR - SOFT**

►► **FEATURES**

- Made of PU foam of high density with rigid polyethylene sheet and anatomically shaped to give a uniform mandible support.
- Fawn colored, hypoallergenic cotton stockinet covering.
- Holes provided for Air ventilation.

**CCHS*
CERVICAL COLLAR - HARD**

►► **FEATURES**

- Made of rigid polyethylene sheet with padded edges for soft cushioning.
- Variable collar width to suit individual neck height.
- Holes provided for air ventilation.

**CNC0506
CUFF N COLLAR**

►► **FEATURES**

- Can be used as Armsling or wrist support.
- Made of soft foam in a stockinette sleeve.
- Plastic fastening ties for easy application and removal.
- Available size: 5 cm x 6 m Roll, Pkng: 2 Roll/Bx.

ASPS* - POUCH ARM SLING

►► **FEATURES**

- Made of 3-layered PU bonded fabric for soft feel, wrinkle free and non-tear property.
- Maximum air ventilation with great looks.
- Single click opening/closing buckle for convenient and quick wearing.
- Adjustable sling allows for comfortable support to the arm at any angle.
- Thumb hanger ensures better patient comfort and compliance.

**EAB02 - 06
ELASTIC ADHESIVE BANDAGE BP**

- Good aesthetic appeal due to woven fast edges.
- Allows free muscle & joint movement.
- Porous adhesive to allow skin breathing .
- Contains 20% zinc oxide which acts as a mild antiseptic, astringent & anti- inflammatory.

ORTHOPEDIC DRESSING

- Adhesive covered with special plastic liner for easy unrolling , easy application, long protection & long storage life.
- An ideal bandage where support, immobilisation & pressure is required.

**ZO05W, ZO10W & ZO60W
ZINC OXIDE ADHESIVE TAPE
(FABRIC BASE)**

- White/flesh colour.
- Easy unrolling.
- Strong adhesion.
- Easy & painless removal.
- 20% zinc oxide imparts it mild antiseptic, antiphlogistic and anti- inflammatory properties.

**PUB02 - 05
P.U. BANDAGE
(POLYURETHANE CASTING
BANDAGE)**

- Light weight, synthetic, polyester based, high strength, orthopaedic casting bandage.
- More pliable and soft made.
- X-ray transparant.

**OPCP20 - 60
BANDAGE ORTHOPEDIC
CAST PADDING**

- It is absorbent non-woven, made of soft natural cellulose fibers which add to the comfort of the patient while plastered.
- Being even Prevents skin macerations.

SURGICAL TAPES

STC/STP SURGICAL TAPE - CLEAR, PAPER & SILK

►► **FEATURES**

- Hypoallergenic, porous, latex FREE
- Easy tear and convenient to use
- Ideal for catheter / I.V. tubing tapedowns.
- Excellent for use on sensitive and fragile skin
- Superior skin adhesion, highly breathable and gentle to skin
- Sizes - 1/2", 1", 2", 3" x 10 yards

BA1975 BROPLAST ADHESIVE STRIP BANDAGE

►► **FEATURES**

- Protective dressing for minor cuts and abrasions.
- Micro perforated strips manufactured of medical grade plastic
- Absorbent non-stick pad for better comfort.
- Sterile & Latex free
- Long lasting adhesion yet easy to peel.
- Measurement: 19mm x 75mm

**BASP23 BROSPOT
ADHESIVE SPOT BANDAGE**

►► **FEATURES**

- Protective dressing for minor cuts and post injection bandage .
- Micro perforated spot manufactured of medical grade plastic
- Absorbent non-stick pad for better comfort.
- Sterile & Latex free
- Long lasting adhesion yet easy to peel.
- Measurement: 23mm

UCC UMBILICAL CORD CLAMP

►► FEATURES

- Suitable for clamping the Umbilical cord after birth
- Security lock to prevent accidental opening after clamping
- Grooved clamping area to prevent slipping of the Umbilical cord
- Manufactured of medical grade plastic.

VGS-L/M/S VAGINAL SPECULAM

►► FEATURES

- Manufactured from Medical grade Plastic, with color coded screw.
- Disposable, Sterile and Individually packed.
- Available in Small, Medium & Large sizes.

USGS* ULTRASOUNDGEL

- For use in diagnostic imaging and other procedures requiring a thinner medium.
- Low viscosity.
- Shares conductive property similar to Thicker gels producing clearer image by spreading thinner and minimizing trapped air bubbles.
- Perfect for technicians preferring thinner gel.

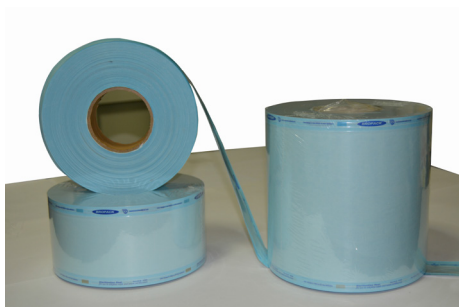

*Gel Capacity

SPS* STERILIZATION POUCH AND ROLL

- Saves time with self-sealing pouches compatible with steam, chemical vapor and gas methods
- Puncture resistant, blue tinted, see-through plastic, provides visual confidence that sterilization is achieved and maintained
- Built in indicators change color when proper conditions for sterilization have been achieved.
- Built-in protection with heavy medical grade paper and easy open thumb notch

BROMED PLUS UNDERPADS

with thick polypropylene backing & Super Absorbent Polymer (SAP)

ISO Absorbency: 800ml

Features:

1. Specially designed to protect beds.
2. Features an integral mat or bonded construction that reduces top
3. sheet separation and clumping
4. Thick non-skid polypropylene backing.
5. Skin-friendly

Available in

16"-24" (40cm x 60cm) - Re order # UP 4060 P

24" -24" (60cm x 60cm) - Re order # UP 6060 P

24"-36" (60cm x 90cm) - Re order # UP 6090 P

Packing: 15 pcs/Bag

BROMED ADULT DIAPERS

Size - M

ISO Absorbency : over 1800ML

Size - L

ISO Absorbency : over 2000ML

Size - XL

ISO Absorbency : over 2100 ML

Advantages

1. Netted channel for faster liquid absorption.
2. Soft and smooth surface
3. Standing leak guard for maximum protection
4. Full frontal refasten tape.
5. Anti-bacterial absorbent inner layer traps fluid and odor for drier skin.
6. Waist band

Precautions

1. Avoid direct contact of tapes with skin.
2. Do not drop the diaper into the toilet bow.
3. Change the diaper at appropriate time.
4. Clean and refresh the skin.

Available in
